

## What can Google Nemesis do that is new?

What Can Google Nemesis Do That's New? This article is a critical review of all the breaking news and prelaunch sneak-peaks surrounding the new course by Chris X and Ken X, authors and founders of Affilaite Project X, Project Black Mask, Day job Killer and Google Assassin. It was not too long ago when Chris X and Ken X accomplished the unforgettable clickbank record by selling over 9,000 copies of Day Job Killer practically overnight. Coming July 8th, Chris X is launching Google Nemesis, the follow up course to the Day Job Killer. I realize that there is so much information out there, and that you are bombarded with one offer after another. However, Chris X is adding little bonus when you purchase this product. He is giving away a campaign - ads, keywords, URLs, everything - that is making him the kinds of numbers you see on the right. Based on Chris McNeeney's track record of success, Google Nemesis is going to provide cutting-edge strategies that other "gurus" keep to themselves. Chris McNeeney is willing to pull off the covers and show you the methods that HE actually uses, not some fluffy tips that end up to be useless. Chris intends to give what he call raw proof on this one in the form of video of him logging into his clickbank accounts and showing people first hand the treasures that lie within. Time will tell if Google Nemesis will reach the heights of Day Job Killer but with the numbers he is quoting as making following these methods, They seem bigger and bolder than ever before and Chris has been a little quiet over the last few months. That usually means he has been working with his programmers on some mind blowing stuff. Chris McNeeney is yet to disappoint his followers around the world and lets hope that Google Nemesis can make everyone a little richer.
